

Safe and practical bike carriers that you easily fit on the rear door

These carriers can easily be folded up and mounted on the rear door with quick-mount attachments. Rubber frame holders keep the bikes firmly in place and protect the frames from scratches. When not in use, simply fold and store the carrier in the car or garage. For those who want to carry their bikes inside the car, we have got a smart solution for that too.

Note! Not suitable for the majority of cars with spoilers.
